related services at 100% of the scheme rate.

MEDX Option

You're a dynamic, young professional, and you know what you want! You can take care of your day-to-day spending when you need to see a doctor or dentist yourself, using your credit card. So, why get the scheme to cover this? It's an unnecessary expense. Plus, you're healthy enough to not need to go to a doctor that much anyway.

You're looking for the essentials, so what you need is the best hospital plan that money can buy, with unlimited cover at any private hospital. You're happy with the cover provided by the 27 chronic conditions which form part of the minimum benefits every scheme has to cover. But you want to know that if something happens, like cancer, you've got the cover you need.

Another reason you've chosen this scheme, is because you're big on life and living it to the fullest. You love the cover CompCare provides for adventure sports, which many other schemes exclude. And, if you think you need something with more flexibility, such as a flexible savings account, why not consider buying up to the UNISAVE option, which provides identical hospital benefits to the MEDX Option, plus a 25% savings plan for day-to-day cover that you can spend as you like. Surf the CompCare website for more details (compcare.co.za).

Understanding your option

Let's face it, medical jargon and terminology can make your benefits about as easy to understand as nuclear science. Getting to grips with some key terms and concepts should, however, assist to shed some light on a subject that can at best be muddling.

So let's get started on explaining some of the basics of your cover: You pay your contribution and based on that we pay your claims. Claims are incurred when you visit a doctor/dentist/optometrist/specialist, or any other registered healthcare provider, or if you are hospitalised.

Claims are divided into two categories, namely routine or day-to-day, out-of-hospital claims and in-hospital (otherwise known as major medical risk) expenses. The MEDX option is a hospital plan and provides cover for in-hospital claims which is paid from the scheme's risk pool. Hospital expenses are unlimited, but sub-limits may apply to certain specified services.

In addition to the cover for in-hospital claims, you will benefit from a comprehensive range of Wellness and Preventative benefits which are also paid from the scheme's risk pool. This option also offers postoperative rehabilitation benefits.
